PROJECTS

Portfolio Website

Tech Used –HTML,CSS, Java Script

Link- [click to view my portfolio](#)

- Here I have Used basic of Html to Set my Website Structure
- Used some CSS to give Style to my Portfolio
- Used some basic of JavaScript to Add Some functionality.

Dynamic Website

Tech Used - front end JSP,Bootstrap, javaScript

Tomcat(Server),SQL(database)-to be implement

Link-in Progress

- Here I am Trying to make a Dynamic Blog Website and used littlebit J2EE (JSP,Servelet)
- ,Tomcat(Server) ,SQL
- JSP used to make frontend,Bootstrap (to Design)
- Tomcat As a server,
- MySQL as DB

Brick Breaker Game

Tech Used - Java Swing,

Link

- Here I am Trying to make a game controlled by Keyboard keys.
- The Pedestal used to prevent the ball from falling below and help ball to destroy as much as block possible.
- The game will be over ,when ball fall below or it destroy all the blocks.
